

# Fundamentals of Energy Transition in Yachting

At the heart of this training course are **two parts**. The first is a 5-hour **presentation of the fundamentals**, including a mini-brainstorming session before and a mini-quiz after each theme.

The second part consists of **3 exercises** and lasts between 1h30 and 3 hours, depending on the number of participants.

Before you arrive, **a questionnaire** will be sent to you by email to find out why you are taking part and what you expect from the course.

These informations will be used for the "participant profile" in Part 2.

When you arrive, we'll give you **a notepad** and **pen** to take notes. Coffee and water are available throughout the day.

## Morning | Starting at 8:00am

At the start of the session, you will be provided with a working document, depending on your choice in the questionnaire, in paper or PDF format. This document is a worksheet structured around the training, with space for note taking
